COVID-19 Screening Flowsheet for Students and Staff

In the past 10 days, has the student or staff been tested for the virus that causes COVID-19, also known as SARS-CoV-2?

YES

Was the test result **positive** OR are they still waiting for the result?

YES

The student or staff **cannot** go to school today. They must stay in isolation (at home and away from others) until the test results are back and are **negative** OR if **positive**, the local health department has released the individual from isolation.

NO

In the last 14 days, has the student or staff:

- Traveled internationally to a **CDC level 2 or 3 COVID-19 related travel health notice country**; or
- Traveled to a state or territory on the **NYS Travel Advisory List**; or
- Been designated a contact of a person who tested positive for COVID-19 by a local health department?

Students or staff **cannot** go to school today. They must stay at home until the local health department releases the individual from quarantine (at least 14 days from the date of their return from travel or last exposure). A negative diagnostic COVID-19 test does not change the 14-day quarantine requirement. School staff are not essential workers and **must** quarantine.
